

Location

Legend

Tree quality

- Predominantly high quality - good condition, safe and useful life expectancy 40 years+
- Predominantly medium quality - fair to good condition, safe and useful life expectancy at least 20 years
- Predominantly low quality - fair to poor condition, safe and useful life expectancy less than 20 years

Tree density

Roads

- High density: forming a closed canopy e.g. densely planted avenues
- Medium density: forming an open canopy
- Low density: scattered trees along road

Open spaces

- High density: forming a closed canopy e.g. woodland
- Medium density: forming an open canopy
- Low density: scattered within open spaces

Other

- Site boundary
- High quality individual tree
